## Skills

**English** (Advanced)

**German** (Beginner)

# Mehmet Burak ALTIPARMAK

## Software Developer

## About Me

I'm Burak, a passionate Software Developer who transformed a lifelong fascination with technology into a thriving career. My journey from Mechanical Engineering to Software Development reflects my commitment to following my true passion and embracing continuous learning.

Through an intensive 960-hour Workintech program, I've built a solid foundation in modern web technologies, completing 78 diverse projects that range from dynamic e-commerce platforms to comprehensive hotel booking systems. This hands-on experience has equipped me with practical skills in React, Next.js, Java Spring Boot, and cloud deployment strategies.

What drives me is the opportunity to solve complex problems and create digital experiences that make a real impact. Whether it's optimizing a client's online presence or building robust backend systems, I bring dedication, creativity, and a growth mindset to every project.

## Experience

Themedya Software & Media

Front End Developer (Freelancer)

02.2025 - present

- Providing external support for the frontend development of the company's website projects.
- Developing modern and high-performance user interfaces using technologies like Next.js, React.js, and Tailwind CSS.
- Creating mobile-friendly and user-centric interfaces by following best UI/UX practices.

## Projects

Front End Developer

[Website](#)

Limon Çiçeği Apart Website

- Tech Stack: Next.js, React, Redux Toolkit, Tailwind CSS, il8next, EmailJS
- Front-end hotel booking platform with 4-language support (TR/EN/DE/RU)
